Prepare, Plan and Stay Informed. Protect your family with a disaster plan.

To download a citizen's guide: www.fema.gov/pdf/areyouready/areyouready_full.pdf

Infection Control:

Prevent Infections When You Get Medical Care

You can help protect yourself from infections whenever you get medical care. This is especially important when you get a medical procedure, like surgery. For more information: health.gov/myhealthfinder/topics/everyday-healthy-living/safety/prevent-infections-when-you-get-medical-care

Clean Hands Save Lives

Keeping hands clean through improved hand hygiene is one of the most important steps we can take to avoid getting sick and spreading germs to others. Wash your hands the right way!

For more information: www.cdc.gov/handwashing

Pain Information Resources:

American College of Physicians (ACP)

The nation's largest medical specialty society, its mission is to "enhance the quality and effectiveness of health care by fostering excellence and professionalism in the practice of medicine".

www.acponline.org

American Medical Association

The AMA is dedicated to promoting the art and science of medicine and the betterment of public health, and their web site is a direct extension of these goals.

www.ama-assn.org

American Society of Anesthesiologists

The American Society of Anesthesiologists has a public access site to answer questions about pain relief, anesthesia during surgery, or other aspects of care.
